

Paul A. Biedrzycki, MPH, MBA, CIH

Paul Biedrzycki currently serves as Director of Disease Control and Environmental Health for the City of Milwaukee Health Department. He oversees and manages a wide range of local public health activities including programs in Communicable Disease Control, Emerging Infectious Disease Response, STD/HIV and Tuberculosis Control, Adult and Childhood Immunizations, Environmental Disease Epidemiology, Food Safety and Handling, Childhood Lead Poisoning Prevention and Public Health Emergency Preparedness and Response.

Mr. Biedrzycki has been active in the planning and response to a number of emerging infectious disease events in Milwaukee that were of national scope and impact including the 1993 Cryptosporidium outbreak, the 2003 Monkeypox outbreak, the 2006 multi-state E.coli spinach outbreak, the 2008 Measles outbreak, and the 2009 H1N1 pandemic.

He has been employed by the Milwaukee Health Department for over 29 years and has also previously served as Manager of Environmental Health overseeing environmental and occupational health programs. He also serves on many regional and national boards specifically related to integration of public health within Homeland Security and Emergency Preparedness activities including biosurveillance, intelligence fusion and risk communication. Mr. Biedrzycki routinely presents at national conferences, symposiums and meetings.

Mr. Biedrzycki received his Masters in Public Health degree (MPH) from the University of Minnesota-Twin Cities and his Masters in Business Administration (MBA) from Marquette University in Milwaukee, WI. He has completed Executive Leadership Institutes at the U.S. Department of Homeland Security Naval Postgraduate School (2007), the Harvard University Kennedy School of Government (2009) and Centers for Disease Control and Prevention Public Health Leadership Program at the University of North Carolina-Chapel Hill (2010). Mr. Biedrzycki was recently appointed for a 3 year term as the public health representative on FEMA's National Advisory Council as well as serving as adjunct faculty at Zilber School of Public Health located at the University of Wisconsin-Milwaukee.
